

(ART & D.T. Focus) Maths Word Problems – KS1 – Year 2

1. A class made 12 clay models on Monday and 15 clay models on Tuesday. How many models did they make in total?
2. There are 20 crayons in the pot. If 7 crayons are broken, how many crayons are not broken?
3. A pencil has 6 sides. How many sides do 5 pencils have?
4. A child uses 4 stickers on each of 6 pages. How many stickers do they use?
5. There are 18 glue sticks on the table. If half of them are empty, how many glue sticks are not empty?
6. A roll of ribbon is 30 cm long. If a child cuts off 12 cm, how much ribbon is left?
7. A table holds 9 paint pots. If there are 4 tables, how many paint pots are there in total?
8. Each card costs £2. How much will 5 cards cost?
9. It takes 6 minutes to paint one picture. How long will it take to paint 4 pictures?
10. A hexagon has 6 corners. How many corners do 3 hexagons have?

MARK SCHEME

1. $12 + 15 = 27$ models.
2. $20 - 7 = 13$ crayons.
3. $6 \times 5 = 30$ sides.
4. $4 \times 6 = 24$ stickers.
5. Half of 18 = 9 glue sticks.
6. $30 - 12 = 18$ cm.
7. $9 \times 4 = 36$ paint pots.
8. $\pounds 2 \times 5 = \pounds 10$.
9. $6 \times 4 = 24$ minutes.
10. $6 \times 3 = 18$ corners.
